Course Overview

The Gerald McGinnis Cardiovascular Institute at Allegheny General Hospital is pleased to offer this exciting educational opportunity highlighting innovations in heart failure and pulmonary hypertension. This course will provide a review of new innovations in the management of heart failure, novel surgical approaches to the heart failure patient and new insights into the pathobiology and evolving treatment strategies for pulmonary hypertension patients. It is intended for cardiologists, cardiothoracic surgeons, internists, pulmonologists and other health care professionals who have direct responsibility for, or interest in, advanced cardiovascular patient care.

Keynote Speaker

Thomas J. Vilsack
Former Governor of Iowa
*Key Issues in Health Care
Policy in 2007*

Invited Faculty

Curtis J. Daniels, MD
The OSU Heart Center

Marc A. Gillinov, MD
The Cleveland Clinic Foundation
